ANNEXURE 'B' REFERRED IN OUR REPORT ON STANDALONE FINANCIAL STATEMENTS TO THE MEMBERS OF MODI RUBBER LIMITED FOR THE YEAR ENDED 31st MARCH 2017

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Modi Rubber Limited** ("the Company") as at March 31, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI").

These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit

to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgments, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and;
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

SIGNIFICANT ACCOUNTING POLICIES AND NOTES ON STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31/03/2017

Note -24

A. SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Preparation of Financial Statements

The financial statements of the company have been prepared in accordance with the generally accepted accounting principles in India (Indian GAAP) under the historical cost convention on accrual basis, except in case of certain items of Income/Expenditure where recovery/payment is uncertain. The company has prepared these financial statements to comply in all material respects with the accounting standards notified under section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 and Companies (Accounting Standards) Amendment Rules, 2016. and guidelines issued by the Securities and Exchange Board of India (SEBI). Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. The Management evaluates all recently issued or revised accounting standards on an on-going basis.
2. Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent liabilities at the date of the financial statements and results of operations during the reported period end. Examples of such estimates includes provision for diminution in value of investments, provision for doubtful debts, future obligations under defined benefit obligations under employee retirement benefit plans, provision for income taxes and the useful lives of fixed and intangible assets. Although these estimates are based upon management's best knowledge of current events and actions, actual result could differ from these estimates. Accordingly, estimated benefits against exports remaining to be utilised / liability for duty free raw materials excess utilised as at the end of the year has been accounted for in arriving at the consumption of raw materials.
3. Inventory Valuation
 - (a) Raw Materials Lower of cost or net realizable value
 - (b) Goods-in-process Lower of Cost or net realisable value.
 - (c) Finished Goods Lower of Cost or net realisable value.
 - (d) Stores, Spares Parts and Loose Tools At weighted average cost.
 - (e) Scrap and Wastage At estimated selling price.

In respect of Finished goods and Goods in process, the cost is determined by considering material, related labour & overheads and duty thereon.
4. Fixed Assets
 - a) All Property, Plant and Equipment (PPE), capital work in progress are stated at cost (Buildings include cost of shares in a Co-operative Housing Society) less depreciation and accumulated impairment losses, if any. Interest on borrowed funds attributable to acquisition of Property, plant and equipment and revenue expenses incurred prior to installation are capitalised as part of assets cost. Own manufactured assets are capitalised at cost including estimated overheads.

Gains or losses arising from derecognition of property, plant and equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized

-
- b) Intangible assets acquired separately are measured on initial recognition at cost. Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.
5. Depreciation and Amortisation
- a) Depreciation on Machinery is provided on Straight Line method and other assets on the written down value method over the useful estimated lives of assets as mentioned in Schedule II of the Companies Act, 2013.
- b) Intangible assets are amortized on a straight line basis over the estimated useful economic life.
- c) Depreciation on Investment property is provided on the written down value method over the useful estimated lives of assets as mentioned in Schedule II of the Companies Act, 2013.
Residual value of all the fixed assets is considered as 5% of gross value.
6. Investments
- a) Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments. On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties.
- b) Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments.
On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.
- c) An investment in land or buildings, which is not intended to be occupied substantially for use by, or in the operations of, the company, is classified as investment property. Investment properties are stated at cost (Buildings include cost of shares in a Co-operative Housing Society), net of accumulated depreciation and accumulated impairment losses, if any.
7. Revenue recognition
- Revenue is recognized to the extent that it is probable to be that the economic benefits will flow to the company and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognized:
- Sale of goods**
Revenue from sale of goods is recognized when all the significant risks and rewards of ownership of the goods have been passed to the buyer, usually on delivery of the goods. The company collects sales taxes and value added taxes (VAT) on behalf of the government and, therefore, these are not economic benefits flowing to the company. Hence, they are excluded from revenue. Excise duty deducted from revenue (gross) is the amount that is included in the revenue (gross) and not the entire amount of liability arising during the year.
- Interest**
Interest income is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head "other income" in the statement of profit and loss.
- Dividend**
Dividend income is recognized when the company's right to receive dividend is established by the reporting date.
- Other Incomes are recognized on accrual basis.

8. Earnings per share
Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events of bonus issue.
For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares that could have been issued upon conversion.
9. Research & Development
Revenue expenditure on research and development is charged as expense in the year in which it is incurred. Capital expenditure on research and development is shown as an addition to fixed assets.
10. Foreign Exchange Transactions
Foreign currency transactions are accounted at exchange rates prevailing on the date of transaction. Current Assets and Liabilities denominated in foreign currency as at the Balance Sheet date are reconverted at rates prevailing at the year-end and the resultant net gains or losses are adjusted in the Account.
11. Retirement Benefits
Retirement benefits are dealt with in the following manner:
a) Contributions to Provident Fund are accounted on accrual basis with corresponding contribution to recognised funds for staff on actual duty.
b) Provision for Gratuity liability is made on the basis of actuarial valuation, with corresponding contribution to recognised fund for staff on actual duty.
12. Provisions, Contingent Liabilities and Contingent Assets
A provision is recognized when an enterprise has a present obligation as a result of past event; it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.
Contingent liability is disclosed in the case of:
i) a present obligation from the past event when it is not probable that an outflow of resources will be required to settle the obligation;
ii) a possible obligation, unless the probability of outflow is remote;
Contingent assets are not recognised in the financial statements.
13. Cash flow statement
Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

ANNEXURE REFERRED IN OUR REPORT ON CONSOLIDATED FINANCIAL STATEMENTS TO THE MEMBERS OF MODI RUBBER LIMITED FOR THE YEAR ENDED 31st MARCH, 2017

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Modi Rubber Limited ("the Company"), its subsidiaries, its jointly controlled entities and its associate as at March 31, 2017, (except one jointly controlled entity viz. Gujarat Guardian Ltd.), in conjunction with our audit of the consolidated financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Company, its subsidiaries and its jointly controlled entities is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI").

These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgments, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- a) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- b) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made

only in accordance with authorizations of management and directors of the company; and;

- c) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company, its subsidiaries and its jointly controlled entities have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matter

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness on the internal financial control over financial reporting insofar as it relates to its subsidiary companies, its associate company and jointly controlled companies, except in the case of one jointly controlled entity, where the unaudited accounts are considered for consolidation, incorporated in India, is based on the corresponding reports of the auditors of such companies.

C. SIGNIFICANT ACCOUNTING POLICIES

1. All significant accounting policies set out under Note-24 "Significant Accounting Policies and Notes on Financial Statements" are given in the Company's separate Standalone Financial Statements. Following are the additional/different accounting policies followed by the Joint Venture Companies:-

- A. In case of "Asahi Modi Materials Pvt. Ltd.:-
- a. Inventory
Valuation of Work in Progress is done at cost.
 - b. Depreciation
Plant and Machinery are depreciated on reducing balance method over the useful estimated lives of assets as mentioned in Schedule II of the Companies Act, 2013.
Assets costing less than or equal to Rs. 5,000 are depreciated on pro-rata basis within the year of purchase.
 - c. Fixed Assets
Leasehold Improvements are amortized over the period of lease or estimated period of useful life of such improvement, whichever is lower.
 - d. Employee Benefit Expenses
Defined Contribution Plan
All employees benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognized as an expense during the period. Benefits such as salaries and wages and bonus ex-gratia are recognized in the period in which the employee renders the related service. The Company's contribution paid/payable for the year to Provident Fund are charged to Statement of Profit and Loss.
Defined Benefit Plan
The Company's liability towards Gratuity and Leave encashment are determined using the projected unit credit method which considers each period of service as giving rise an additional unit of benefit entitlement and measures each unit separately to build up the final obligation. Actuarial gain and loss are recognised immediately in the statement of Profit and Loss for the year in which employee has rendered services. Estimated liability on account of long term benefits is discounted to the present value, using the market yield on Govt. bonds, as on the balance sheet date.
 - e. Leases
Assets taken under leases, where the lessor effectively retains substantially all the risks and benefits of ownership of the leased term, are classified as operating leases. Operating lease payments are recognized as an expense in the Statement of Profit and Loss.
 - f. Borrowing Cost
Borrowing costs to the extent related/attribution to the acquisition/construction of assets that takes substantial period of time to get ready for their intended use are capitalized along with the respective fixed asset up to the date such asset is ready for use. Other borrowing costs are charged to the Statement of Profit and Loss.
- B. In case of Gujarat Guardian Limited (GGL):-
- a. Depreciation and Amortization
Depreciation on tangible fixed assets has been provided on the straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013.
Leasehold Land is amortized over the period of lease term of 99 years.
Items with an original cost of amount up to Rs. 5,000 are depreciated at the rate of 100% over a period of one year.
 - b. Leases-As a Lessee
Leases in which significant portion of the risks and rewards of ownership are retained by the lessors are classified as operating leases. Payments made under operating leases are charged to the Statement of Profit and Loss on a straight line basis over the period of lease.
Such leases where the Company has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the inception of the lease at the lower of the fair value of the leased asset and the present value of the minimum lease payments and a liability is created for an equivalent amount. Each lease rental paid is allocated between the liability and the interest cost so as to obtain a constant periodic rate of interest on the outstanding liability for each year.

c. Impairment

Assessment is done at each Balance Sheet date as to whether there is any indication that an asset may be impaired. For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets, is considered as a cash generating unit. If any such indication exists, an estimate of the recoverable amount of the asset/cash generating unit is made. Assets whose carrying value exceeds their recoverable amount are written down to the recoverable amount. Recoverable amount is higher of an asset's or cash generating unit's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. Assessment is also done at each Balance Sheet date as to whether there is any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased.
